

KaWaBiz NET successfully ran a booth at "Kawasaki International Eco-Tech Fair 2016" (Results Report)

Kawasaki Water Business Network (KaWaBiz NET) ran a booth at "Kawasaki International Eco-Tech Fair 2016", which was held on February 18 (Thursday) and 19 (Friday), 2016 at the Todoroki Arena.

This exhibit received 15,000 visitors over the 2 days it was held, and our booth was visited by people from 22 foreign countries including Indonesia, China, Korea, Cambodia, India, Colombia, and Mauritania as well as people from internal companies and various organizations, etc.

At our exhibition booth, we introduced KaWaBiz NET's recent activities such as our activities in Ba Ria–Vung Tau Province in Vietnam and the technologies, products, efforts, etc. of our member companies. This time we renewed the "Kawasaki Water Business Network Business Introduction Catalog" as well as installing a 46-inch monitor in our booth to introduce things using video.

We received consultation from visitors regarding requests for information to our members, network construction, etc. Our catalog was also prepared in both Japanese and English versions, with each 120 of them being taken by visitors, and many people expressed interest in the videos introducing our activities.

KaWaBiz NET continues disseminating information to both home and abroad by taking various opportunities to lead to water business for members in the future.
