

We Announced our Activities at the Queensland Japan Chamber of Commerce and Industry Seminar.

City of Kawasaki and State of Queensland executed a memorandum of understanding regarding industrial exchange in the fields of water resource management, environmental technologies, etc. in July of 2011, and since then there has been a deepening of personnel exchange.

On June 13, 2014, Anthony Shorten MP, Member of Queensland Parliament, as well as 14 members of the Queensland Japan Chamber of Commerce and Industry attended the "Queensland Japan Business Seminar" held in Kawasaki Chamber of Commerce and Industry to plan exchange of business with Japanese companies.

Kawasaki Water Business Network (KaWaBiz NET) introduced activities within the seminar in the fields of water in Queensland. Participants from the Queensland expressed a interest regarding water resource development in remote areas and water treatment accompanying resource mining.

Through KaWaBiz NET, the private companies and City of Kawasaki will continue to work together toward improving the water environment in Queensland while utilizing the information we have acquired on this occasion.

Speech by Anthony Shorten MP, Members of Queensland Parliament

Introducing the Activities of KaWaBiz NET and Efforts in Queensland
