

The Holding of a Kawasaki Water Business Network and JICA Yokohama Online Seminar

The Kawasaki Water Business Network (KaWaBiz Net) and JICA Yokohama joint hosted the “Online Seminar for Overseas Development using JICA Private Partnership Projects - The Potential for Water Business in Laos,” using an online format on November 2 (Tue), 2021. The seminar was intended for those with an interest in the water business in Laos and other locations overseas. They were introduced to support schemes for overseas development, local needs, and past examples of overseas development.

KaWaBiz Net intends to continue to use its functionality as a platform connecting the public with the private, providing useful information and supporting the water business of our members through such events as the holding of such seminars.
