

Holding of a “Water Business Overseas Development Web Seminar: The Ministry of the Environment’s Asia Water Environment Improvement Model Project and Related Case Studies” Hosted by Kawa Biz Net

Kawasaki Water Business Network hosted an online seminar on Friday, December 23rd, 2022, entitled “Water Business Overseas Development Web Seminar: The Ministry of the Environment’s Asia Water Environment Improvement Model Project and Related Case Studies.” The seminar introduced the scheme from the Ministry of the Environment joined as Kawa Biz Net’s collaborating organization in October 2022 for supporting the development of water technology overseas, along with examples of it in action. Participants were members of Kawa Biz Net and parties interested in water business overseas.

Kawa Biz Net will continue to function as a platform for such collaborations between the private and public sectors, holding seminars of this nature and similar undertakings to support the water business of our member companies with the provision of useful information.
