

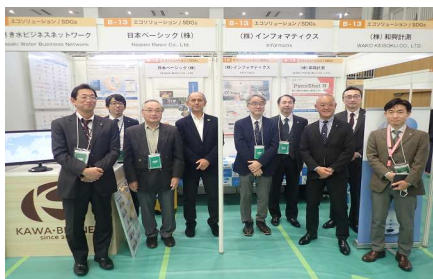

Exhibiting at the 18th Kawasaki International Eco-Tech Fair (Results Report)

The Kawasaki Water Business Network (KaWaBizNET) participated in the 18th Kawasaki International Eco-Tech Fair across the two days for which it was held, Wed, November 12, and Thu, November 13, 2025, at the venue Culttz Kawasaki. We shared our booth with the companies Informatix, Nippon Basic, and Wako Keisoku.

One hundred and twenty organizations exhibited at the fair, with approximately 4,400 attendees over the entire event period. KaWaBiz NET actively promoted our activities to both domestic and international companies and organizations through presentations at exhibitor pitches and by hosting overseas attendees on UNIDO-organized tours. We received many inquiries from attendees about the products and technology offered by those sharing our booth, as well as the network among members of Kawa Biz Net.

KaWaBiz NET will continue to expand business opportunities for our members by transmitting information domestically and overseas through a wide range of venues.
